Sir:

A sequence listing for the above-identified application is being transmitted herewith on Compact Disc in compliance with 37 CFR §1.52(e) and 37 CFR §1.821(e), along with a Computer Readable Form (CRF) on a 3.5 inch diskette in accordance with 37 CFR §1.824. The Compact Disc is labeled: "MODIFIED FACTOR VIII", Attorney Docket No. MER-133, created on October 6, 2004. The label also includes the names of the inventors, the filing date of October 15, 2004, and a notation: National Stage of PCT/EP03/04063 (a serial number has not yet been assigned). The Compact Disc is in IBM-PC, MS Windows-compatible format on a Compact Disc-Recordable (CD-R) disc. The Compact Disc includes a single text file entitled "MER133SEQLIST.TXT" having a file size of 275,000 bytes and containing the sequence listing of the above identified application in lieu of a paper copy thereof. An amendment to the specification incorporating-by-reference the contents of the Compact Disc is being submitted concurrently herewith. I hereby state, to the best of my information and belief, that the sequence listing information in Computer Readable Form is identical to the Compact Disc copy of the sequence listing.

Respectfully submitted,
